Career Objective

As a user-focused Web Developer seeking an entry-level Software Engineer position, my experience in carpentry has taught me how to communicate with clients, understand their needs and expectations, and deliver on their specifications while working efficiently to meet deadlines. Additionally, my carpentry work has honed my creativity, allowing me to come up with unique solutions to problems and think outside the box, which translates into creating user-friendly experiences on the web.

Experience

July 2020 - Present

Carpenter, Woodland Steelworks

- Manufacture household, outdoor, and large furniture
- Design new products and improve production methods
- Organize and manage materials for production
- Punctual Carpenter with extensive knowledge of wood quality and composition
- Collaborates successfully with homeowners in selecting building materials
- Strictly adheres to building plans to promote customer satisfaction and return business
- Provides high-quality carpentry through precise and detail-oriented approaches
- Driven to exceed customer expectations while meeting all budget and schedule requirements.

June 2018 - July 2020

Carpenter, Builder King

- Regularly leads helpers and instructs less experienced professionals in basic and advanced techniques
- Responsibilities included installing flooring, cabinetry, and tile, managing project designs and materials, property management, and overseeing remodels
- Safety-minded in following procedures, maintaining organized workspaces, and using tools correctly
- Displayed keen attention to detail and design
- Committed to fulfilling all customer expectations through careful adherence to design plans and requests.
